

ENERGY SERVICES

HWO AND SNUBBING SIGNATURE 225K UNIT

SBS Energy signature 225K units are designed and custom built to perform live and dead well interventions on both land & offshore.

ADVANTAGES

- Utilized Offshore & Onshore
- Environmental friendly
- Experienced Well Control Personnel
- Reduced Footprint
- Efficient Mobilization / Demobilization
- Eliminates the need for Kill Fluids
- Used as quick jack or stand alone
- No need for drilled anchors
- Four 22,000lbs anchors available

SERVICES

- Conventional Workovers
- Completion/Recompletion
- Fishing and Milling
- Clean Out Operations
- Plug & Abandonments
- And Much More

HSE

Our equipment meets or exceeds the safety standards of government agencies around the world. Participation of all personnel is required in safety drills, meetings and rig inspections, with documented follow up by management. All equipment and processes are designed and maintained with safety in mind. Our behavior based safety program is CHAMPS:

Communicating
Hazards
And
Motivating
Personal
Safety

225K Specifications	
Unit type	Stand Alone or Quick Jack
Max pull capacity	225,000 lbs.
Max snub capacity	112,000 lbs.
Rotary	6,000 ft/lbs.
Stroke	10' Stroke
Jack Bore Size	7 1/16"
Pipe range	1" to 5 1/2"
Gin pole	42 ft Height
Pipe Handling	Counter Balance Winch: 1000 lbs Rated
Work window	6' with 7 1/16" Thru Bore
Power slips	225K Hydra Rig Slip Bowls
Power tongs	Third Party Rental
Rated working pressure	5k 10k and 15k BOPs and Circulating System Available
Heaviest Lift	Jack 25,000 lbs.

SNUBBING APPLICATIONS

- Well control
- Live well fishing jobs
- Tubing cleanouts (Barium/Asphaltene/Paraffin/sand) removal
- Live well completions
- Thru tubing fishing/milling
- High pressure pumping
- Damaged/leaking completion repair
- Live well pressure milling
- Packer & plug fishing
- Installation of plugs, packers and liners
- Underbalanced drilling
- Perforating
- Well killing

WORKOVER APPLICATIONS

- Completions / Recompletions / Tubing change-out (Single/Dual)
- ESP change-outs
- Gravel packs
- Casing cutting
- Plug & abandonment
- Section Milling
- Side tracking
- Wash jobs
- Straddle packers
- Zone isolation
- Pumping services
- Spotting cement
- Pipe recovery
- Squeeze jobs
